

Day 01 Activity

Math 245, Adam Loy

Instructions

Explore the HELPrct data set to try to find some interesting insights. You may want to check out the codebook on Moodle to get a glimpse at what this data set contains. Next, start exploring the data set using plots, tables, and other numeric summaries. Select three of your favorite plots and tell a story (in writing) about each of them.

```
# load the data set from the url
HELPrct <- read.csv("https://aloy.rbind.io/data/HELPrct.csv")

# loading the necessary packages
library(ggformula)
library(dplyr)
```

```
## Warning: package 'dplyr' was built under R version 3.5.1
```

PLOT 1

```
# put the code for your plot here
```

(Include the description for your plot here.)

PLOT 2

```
# put the code for your plot here
```

(Include the description for your plot here.)

PLOT 3

```
# put the code for your plot here
```

(Include the description for your plot here.)
